

IT'S LIKE "GOING HOME"

When Smokey Robinson said in his recording, "I'll second that emotion", you bet I agree with Jane Parks-McKay in her letter in the March JAGazette edition, and I second her emotion when she speaks so highly of EMILES SPORTS CAR PERFORMANCE located in Santa Cruz. Not only does he specialize in Jaguar, but all British makes and he further specializes in Maserati and Ferrari. My wife, Juana, and I can certainly attest to that too, as he has recently completed repair/maintenance on a Concours award-winning original Maserati Merak SS we own – with Superb work being done.

Emile and Peter, who have worked together for over 25 years are both master mechanics/technicians, easy to work with, being extremely personable. I feel as if I'm treated like family. It is not just a repair facility, it's like "going home". How difficult we find that to say in this day and age!

Whether it's a twin or triple SU setup or any combination of Weber carburattion or fuel injection, Emile has full command of the situation. While I do have to drive a 90 mile round trip to Emiles, it does not faze me in the least, knowing that the work is going to be performed in a fully competent and professional manner.

Folks, if you want your Jags or any of your classic cars treated very properly and purring, as they should, give Emiles Sports Car Performance a call. Yes, he does advertize in our JAGazette.

Say "Hello," when you see him.

s/Bruce Wagner

Editor's Note; It would be helpful if when you patronize either of these repair facilities you let them know that their advertisement in the Jagazette is paying off.

We are told in the Jagazette and JCNA magazine to please support our advertisers. So in that vein, I took my XJS to BACCHUS JAGUAR, a steadfast supporter of our Jagazette.

I found a clean shop and pleasant owner in Sheik Bacchus. The shop is very well equipped and caters to modern as well as older Jaguars. They have several bays and can perform four-wheel alignment and balancing. Mention the JAG club for special treatment. The service on my car was done promptly and I was pleased with the results.

The shop is located at 6310 Houston Place, Unit B. in Dublin near the 580 freeway and is easy to find because of all the Jaguars around the place.

**Opel Chief Moves to Tata
(As reported by Autoweek Magazine)**

The former head of General Motor's European Opel Division, Carl-Peter Forster has landed as CEO of India-based Tata Motors. Forster was seen as the top candidate to take over as head of Tata-owned Jaguar-Land Rover, but instead, he will assume a global leadership role at Tata. The appointment of a Jaguar-Land Rover chief is still pending.
